QUALITY YOU CAN FEEL

The RGH Series Package Gas Electric Rooftops: Highly Efficient, Simply Smart

The new Tempstar[®] RGH Series Package Gas Electric single package rooftop is easy to install, easy to service and built to last.

- Convertible from downflow to horizontal airflow, no special adapter curbs required
- Redundant gas valve; up to two stages of heating
- Single or dual scroll compressor
- Exclusive IGC solid-state control for on-board diagnostics with LED error code designation
- Access panels with easy grip handles; “no-strip” screw system
- Features a variety of factory-installed options, including stainless steel heat exchanger

Many models of Tempstar[®] products have some of the highest EER ratings in the industry and are ENERGY STAR[®] qualified. For details, visit energystar.gov.

Fifteen year limited warranty applies to optional stainless steel heat exchanger. Ten year limited warranty on aluminized heat exchanger. See published warranty for complete details. To learn more about these limited warranties, go to GoTempstar.com
